

The "MINI-WAVE"

MAGSTUDIO

2020

As a visual artist I always have been concerned about the origin and sustainability of materials.

In a time when we are concerned about our planet, I just couldn't produce another synthetic piece using chemicals. The idea of having one day my designs polluting the ocean, at the bottom of the sea or by the beach was just impossible. Cork has been the solution for my new designs. Doing a lot of research and testing I discovered how much I could do and create with the product. Cork oak trees store carbon in order to regenerate their bark and reduce greenhouse gases in the atmosphere. In addition to its natural beauty, it is one of the most sustainable and ecological materials available at the moment. When implemented properly, the flexibility of cork is quite inspiring.

Cork oak is one of the most sustainable trees. Cork oak trees store carbon in order to regenerate their bark and reduce greenhouse gases in the atmosphere. It is one of the most sustainable and ecological materials available at the moment. It's a natural raw material which is 100% biodegradable, recyclable, and renewable. The first harvest is done when the tree reaches 25 years of age. Following harvests can take place every nine years until the tree reaches an average of 200 years old. The cork board I am working with is additive and chemical free. The black cork boards are agglomerated into blocks with vapour - steam injected through the granules expands and agglutinates the natural resin with the cork itself. It has a slight natural odor which dissipates quickly. The natural colour board process is quite similar.

The material itself is extremely strong, resilient, and long-lasting. Any models of the "Mini-Wave" could be made for your interior or outdoor space: living room, bedroom, garden, terrace, swimming pool; private as well as public spaces. The choice of indoor or outdoor piece needs to be specified when placing the orders as the treatment of the board differs for indoor and outdoor models.

The choice of indoor or outdoor piece needs to be specified when placing the orders. The treatment and the choice of cork board will not be the same.

For the painted models I use natural dyes only, water base paint finished with either a stain or matte varnish. The raw black cork, in its natural colour version, is protected with a natural oil. Cork doesn't require much maintenance.

To know about cork

- Cork is a 100% natural product, ecological and recyclable.
- Impermeable.
- Colour of natural cork may vary from one board to another.
- Even though it looks tasty it is **NOT** made to eat!!! (Try chocolate instead... I have, it works... Who knows, one day I will make a design out of cocoa beans...)
- Like any other pieces of furniture, hitting with a blunt object won't do well...

The standard "Mini Wave" series is customized - Choose your products and finishing; colours, indoor, outdoor etc... Standard delivery is eight weeks from the time to completed order.

To place any orders please contact at ma@marcantoinegoulard.com.

MINI-WAVE STOOL DIMENSIONS

420x350x350 mm, 16x13.3/8x13.3/8 inch.

"Mini-Wave" Stool.

Natural cork with oil finishing for indoor only.

Dark cork with oil finishing, indoor/outdoor.

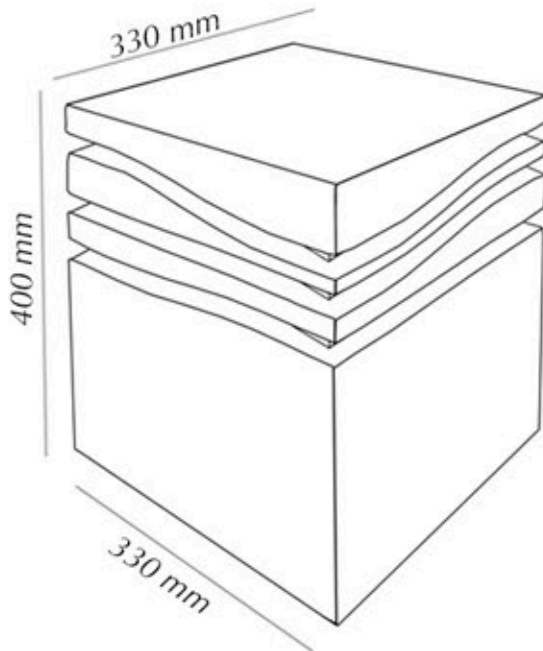

Stained cork with indoor/outdoor matte varnish.

Painted, indoor/outdoor matte or glossy varnish.

MINI-WAVE TABLE DIMENSIONS

400x330x330 mm, 15.3/4x13x13 inch.

"Mini-Wave" Table.

Natural cork with oil finishing for indoor only.

Dark cork with oil finishing, indoor/outdoor.

Stained cork with outdoor/indoor matte varnish.

Painted, indoor/outdoor matte or glossy varnish.

MINI-WAVE BENCHES DIMENSIONS

Size A: 1250x410x300 mm, 50x16x12 inch.

Natural cork with oil finishing, indoor only.

Dark cork with oil finishing, indoor/outdoor.

Painted, indoor/outdoor, matte or gloss finishing.

Size B: 1500x410x300 mm, 60x16x12 inch.

Natural cork with oil finishing, indoor only.

Dark cork with oil finishing, indoor/outdoor.

Painted, indoor/outdoor, matte or gloss finishing.

Size C: 1800x420x300 mm, 74x16.1/2x12 inch.

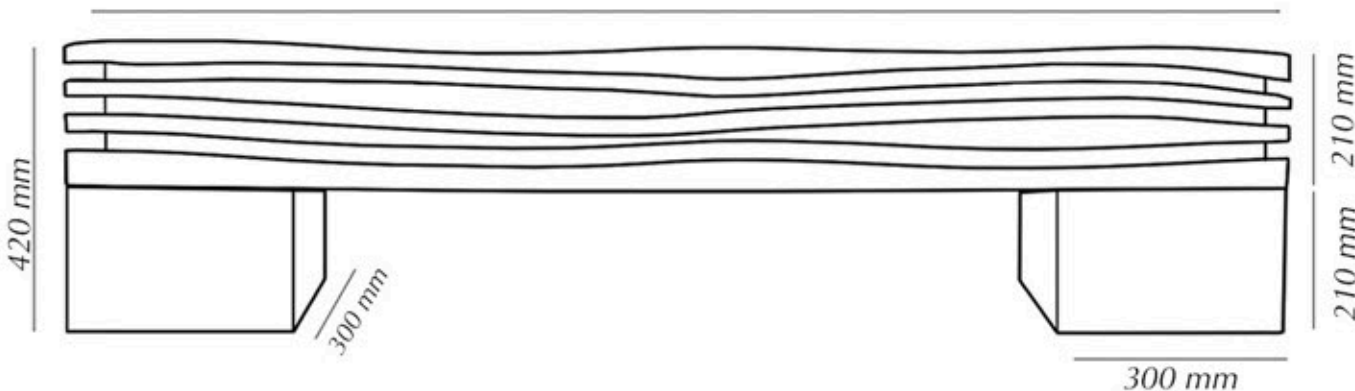

Natural cork with oil finishing, indoor only.

Dark cork with oil finishing, indoor/outdoor.

Painted, indoor/outdoor, matte or gloss finishing.

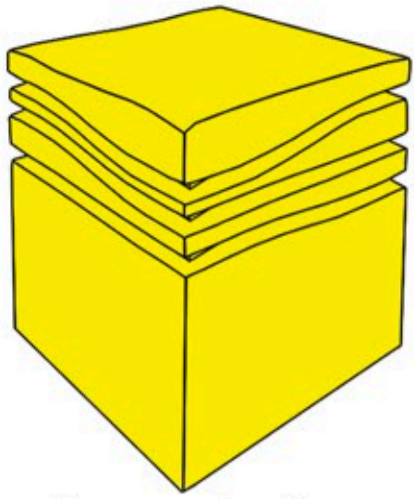

"Mini-Wave" Bench.

1250 mm
